

# Luis Felipe Borjas

*Full web-stack engineer, itinerant educator*

## Work Experience

Sept 2011– Now

**Consultant/Co-founder**, *Escolarea LLC*.

- General solutions for fellow entrepreneurs: backbone.js based single-page apps, ruby on rails (RoR) applications/mobile APIs, server and database provisioning and administration (debian-based servers, MySQL databases and MongoDB datastores), use of Amazon Web Services.
- Clients to date: <http://monaeo.com>, <http://www.phillyinfofocus.com>, <http://playpinstar.com>

June 2011–Dec 2011

**Co-founder**, *Pictour.us, Inc*, New York, NY, US.

- Engineered the RoR backend for the geolocation aware photo-sharing mobile API for the iPhone and android apps; using amazon S3 for storage. Deploying to rackspace cloud, PostgreSQL db.

May 2009–June 2011

**Co-founder**, *Class.io*, Tegucigalpa, Honduras.

- Built the web application on python (django), with MySQL/PostgreSQL databases, using RabbitMQ for background jobs and integrating with google single sign on and apps APIs, the app participated in Google I/O 2001 and is on the education marketplace

## Skills

### Programming languages

Ruby, python, javascript (client-side and node.js, coffescript), java, C++

### Devops

Debian-based systems on VPNs, AWS, heroku, engineyard, rackspace cloud

### Misc

Git, TeX, Vim

### Databases

MySQL, PostgreSQL, mongoDB

### Other interests

Theory of computation and programming languages, specially functional programming with Lisp (Scheme and Clojure) and Haskell

## Teaching Experience

Summer 2012

**Lecturer**, *General Assembly*, New York, NY, US.

- Co-lectured the "cs for hackers" course, covered data structures and algorithms, theory of computation and theory of programming languages; more info at <http://cs4h.com>

Oct 2010–May 2012

**Lecturer**, *UNITEC*, Tegucigalpa, Honduras.

- Taught programming in java and web development in python and ruby

## Education

Jan 2006–  
Sept 2010

**Bachelor of science in computer systems engineering**, *Central American Technological University (UNITEC)*, Tegucigalpa, Honduras.

- Graduated cum laude
- Dissertation: web service for just-in-time recommendations based on ontological user profiles
